

The War Memorial Ground, The Vinery, Winscombe, North Somerset BS25 1AS
www.winscombefootballclub.co.uk

The club will be continuing to use VEO for teams who request to use the camera. This enhances the ability of coaches to focus on both individual and team development, tactical development, and game plan strategy.

The Somerset FA promotes VEO as a legitimate coaching aid.

The equipment also enables our players to have access to recorded games for their personal development. Some players may wish to relive something they have personally achieved in the game.

If a game is selected for VEO, your coach/manager will notify parents of the players involved through their usual communication channel.

This means the game will be filmed, highlights available to those with a link (which will generally be players and parents, including the opposition).

The club may use video clips on social media to promote the club – things like goal of the month, an outstanding pass or a great save.

Under 18 players will not be individually named in any VEO filming without express permission being granted by their parents.

If you have any questions, please speak with your child's manager.
